

## ANIMALS WITHOUT BACKBONES

All of these marine animals have one thing in common - they don't have a backbone. Look carefully at the pictures and use the key to find out what each animal is and then fill in the answers at the bottom of the page. Start at the first question each time.

- a) Does it have lots of tentacles? ..... Yes - **anemone**  
 No - go to question 2
- b) Does it have a shell made of two parts? ..... Yes - **scallop**  
 No - go to question 3
- c) Does it have claws and several jointed legs? ..... Yes - **crab**  
 No - go to question 4
- d) Is it covered in spines? ..... Yes - **sea urchin**  
 No - **starfish**

### THE ANIMALS ARE:
