

### Sun

I create light energy that reaches planet Earth.

Zooplankton

We get our energy from tiny plants called phytoplankton.

## Phytoplankton

We get our energy from sunlight.

## Sand Eels

We get our energy from tiny animals called zooplankton.

**Plaice** 

I get my energy from

small worms and

crabs living in the

sea bed.

Herring I get my energy from  $% \left\{ 1,2,\ldots ,n\right\}$ tiny animals called zooplankton.

## Cod

I get my energy from small worms and crabs living in the sea bed.

## Human

I eat lots of food from the sea including fish, crabs, periwinkles and even seaweed.

Worms

We eat dead and dying animal matter that has fallen to the sea floor.

# Kelp

I get my energy from sunlight.

## Periwinkle

I get my energy from grazing on seaweed.

## Starfish

I eat molluscs such as periwinkles.

## **Bull Huss**

Dolphin

I get my energy

from herring.

**Herring Gull** 

I get my energy from

crabs, periwinkles

and small fish.

I get my energy from small worms and crabs living in the sea bed.

## **Shore Crab**

I eat dead and dying animal matter that has fallen to the sea floor.
