

Eggcase Match-up

Many shark and all skate species lay eggs called mermaid's purses. Colour and match the pairs of mermaid's purses to find the odd one out! Can you identify the types of sharks and skates that laid these eggs?

Become a Citizen Scientist: If you find eggcases at the beach you can contribute your data to a national database by sending in photos and information about what type and where you found the eggcase to <https://www.sharktrust.org/great-eggcase-hunt> or via the Eggcase Hunt app.

See: <https://www.sharktrust.org/great-eggcase-hunt> for help with identification of eggcases too!
